***Company introduction***

## ***International road transport***

Our company offering complex transportation services throughout central, southern and western Europe. Our specialization is a groupage service between The Czech Republic, Slovenia and Croatia.

Our mission in this field is to offer excellent, reliable, efficient and professional services to the satisfaction of our valued clients and be preferred company within the region, in this very competitive freight industry, as we understand the market better and the ever changing client needs and market dictates, having been in this industry for long and backed by a vibrant, hardworking and results oriented team who are extremely experienced in the freight and transportation industry. Therefore our fleet is 24/7 online monitored with system [Positrex](#), efficiency is monitored by system [Dynafleet](#). All company process are under ISO 9001:2008 since 2003.

Transport is provided by VOLVO and IVECO trucks with tarpaulin trailers of volume up to 100 m3 and a payload of 26 000 kg. The price for transport is based on agreement and the cargo is insured during transportation up to 10 000 000 Kč.

All our trucks are equipped for transportation of ADR. We provide JUST IN TIME for important companies in car industry as Skoda Auto, Peugeot, Renault, Volkswagen, Seat etc.

The company is based in [Libřice](#) near Hradec Králové, which was since long ago a part of an important trade route. This fact inspired us to build a small gas station and car service JŠ a syn. We are importing gas from selected refineries and sell at prices comparable to the surrounding businesses. Our satisfied customers like going back to us.

Since the beginning of our company we guarantee the quality of services that relate to modern and technologically perfect vehicles (we have vehicles with emission standard EURO 6), as well as our longtime qualified drivers and that's why we are able to provide long-term partnerships and quality service to our customers.
